### WEB/GRAPHIC DESIGNER | UI DESIGNER | ILLUSTRATOR | VIDEO EDITOR

*www.onlinejobs.ph*

#### Duties and Responsibilities

In 2013, I made the decision to transition into full-time remote work from home. My first position was as a web developer at a company based in Ireland. During this time, my primary role involved revamping the company's website. After successfully completing that project, I diversified my work by taking on a variety of projects for different clients. This included tasks such as web design, creating shirt designs for print-on-demand, crafting UI designs for mobile apps, and video editing for YouTube content.

### WEB DESIGNER | FLASH GAME DEVELOPER

*Zylun Staffing Philippines*

#### Duties and Responsibilities

I was initially brought on board as a flash game developer, responsible for creating interactive flash games tailored for children using Adobe Flash and ActionScript 3.0. When my initial contract concluded, I was subsequently retained as a web designer and developer, and I became an integral member of the team responsible for the redesign of the company's website.

**Feb 2011 - Dec 2012**

### WEB DESIGNER AND DEVELOPER

*Greenwire Outsourcing*

#### Duties and Responsibilities

Creating the visual and interactive elements of a website, including layout, color schemes, typography, and user interface (UI) design.

Collaborating with web developers to implement the design using HTML, CSS, and often JavaScript.

Making sure that websites work well on various browsers.

Conducting usability tests and fixing any issues or bugs that arise in the design or functionality.
